POST DETAILS

Title:

Special Educational Needs Organiser

Description:

The National Council for Special Education (NCSE) is an independent statutory body established to improve the delivery of education services to persons with special educational needs arising from disabilities with particular emphasis on children and young people.

The NCSE is now recruiting for the position of Special Educational Needs Organiser (SENO) in Cavan. A panel will be formed from which existing and future vacancies will be filled.

The NCSE is presently undergoing a significant organizational expansion which will enhance the delivery of services. It has developed a service delivery strategy based on three fundamental values: community, inclusion and excellence. In the role of a Special Educational Need Organiser, you will collaborate with a diverse group of stakeholders, including educators, parents and policymakers, to drive positive change in the education sector. This means you can see the real impact of your work on students' lives, which is incredibly rewarding. A Special Educational Needs Organiser (SENO) employed by the National Council for Special Education (NCSE) plays a crucial function within the framework of special education. SENOs are charged with a variety of responsibilities to ensure that students with special educational needs (SEN) receive individualised support and services.

Working as a SENO you will assess and identify students with SEN, working alongside schools, parents, and professionals. You work directly within the education sector at primary, post primary and special school levels. The work involves significant interaction with parents/children, teachers and school leaders, health care professionals, school authorities, HSE and other relevant government agencies.

SENOs aid in the development of Individual Education Plans (IEPs) that outline the specialized assistance necessary for each student. They also facilitate the allocation of essential resources, such as extra teaching support and assistive technology.

The closing date for the receipt of applications is 3pm 31st October 2024

To learn more about this role, open our candidate booklet on the role of SENO which includes details of the application process, please click on the below link. A completed application form is required to apply, and must be submitted via the competition application page, which can be found through the link below
